## II.A. Uses of Education Stabilization funds by LEAs

Provide a concise narrative of how LEAs in your state have generally used Education Stabilization funds, and the impact that the funds had on elementary and secondary education in your State from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

**LEAs have generally used these funds to improve teaching and learning for students most at risk of failing to meet State Academic Achievement Standards. In addition to district-determined focused strategies aligned to the four assurance areas, examples of district-level expenditures included: assigning high-performing teachers to low-performing schools; providing reading and other academic coaches for all schools with a focus on low-performing schools; providing student services personnel, such as social workers, school psychologists, for all Title I and Corrective Action schools to improve student attendance and academic achievement; providing related services personnel and paraprofessionals at all schools to meet the needs of students with disabilities as identified in their individual education plans; providing special education specialists to all Title I and other schools with more than 20% enrollment in special education to provide educational support; increasing public school prekindergarten programs to full-day in low performing schools; and increasing student participation in more rigorous advanced courses, such as International Baccalaureate, Advanced Placement, Advanced International Certificate of Education, Dual Enrollment in Florida Colleges or Universities, and courses leading to Industry Certification.**

Please update for the new timeframe:

**LEAs have generally used these funds to improve teaching and learning for students most a risk of failing to meet State Academic Achievement Standards. In addition to district-determined focused strategies aligned to the four assurance areas, examples of district-level expenditures included assigning high-performing teachers to low-performing schools; providing reading and other academic coaches for all schools with a focus on low-performing schools; providing student services personnel, such as social workers, school psychologies, for all Title I and Corrective Action schools to**

**improve student attendance and academic achievement; providing related services personnel and paraprofessionals at all schools to meet the needs of students with disabilities as identified in their individual education plans; providing special education specialists to all Title I and other schools with more than 20% enrollment in special education to provide educational support; increasing public school prekindergarten programs to full-day in low performing schools; and increasing student participation in more rigorous advanced courses, such as International Baccalaureate, Advanced Placement, Advanced International Certificate of Education, dual Enrollment in Florida Colleges or Universities, and courses leading to Industry Certification.**

Estimate the total amount of Education Stabilization funds draw downs that the State made on behalf of LEAs, from October 1, 2010 to September 30, 2011, under the following categories:

Salaries and benefits:	<b>\$777,697,966.21</b>
Contracts for construction, modernization, renovation, or repair projects:	<b>\$0.00</b>
Other:	<b>\$99,449,988.79</b>
Total:	<b>\$877,147,955.00</b>

## **II.B. Uses of Education Stabilization funds by public IHEs**

Provide a concise narrative of how public IHEs in your State have generally used Education Stabilization funds, and the impact that the funds have had on postsecondary education in your State from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

**The State College System used funds allocated to the IHEs for the purpose of supporting adjunct instructional personnel. Without this funding, course offerings would have been reduced. For the career and technical education centers, the funds supported retention of over 500 instructional and support positions. In addition, these funds allowed programs to purchase equipment necessary to run effective career and technical education programs. State universities used SFSF funds to retain instructional and support staff, and for technology, scholarships, library resources and other educational needs.**

Please update for the new timeframe:

**The State College System used funds allocated to the IHEs for the purpose of supporting adjunct instructional personnel. Without this funding, course offerings would have been reduced. For the career and technical education centers, the funds supported retention of over 500 instructional and support positions. In addition, these funds allowed programs to purchase equipment necessary to run effective career and technical education programs. State universities used SFSF funds to retain instructional and support staff, and for technology, scholarships, library resources and other educational needs.**

Estimate the total amount of Education Stabilization funds draw downs that the State made on behalf of public IHEs, from October 1, 2010 to September 30, 2011, under the following categories:

Salaries and benefits:	<b>\$365,300,140.73</b>
Student financial assistance:	<b>\$0.00</b>
Contracts for modernization, renovation, or repair projects:	<b>\$0.00</b>
Other:	<b>\$70,583,763.35</b>
Total:	<b>\$435,883,904.08</b>

## II.C. Uses of Government Services funds by entities

Provide a concise narrative of how entities in your State (including State agencies) have generally used Government Services funds, and how the funds have affected the State's provision of services from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

**All of these funds have been allocated for education purposes including assessment, early childhood education, postsecondary education, workforce development (vocational education), K-12 educational reform, K-12 educational delivery systems, and student financial aid. In addition to locally-determined focused strategies aligned to the four assurance areas, examples of expenditures included: providing mentoring and induction for new and struggling teachers, providing teachers with the necessary professional development and/or with reimbursement for courses and certification examinations upon completion to become highly qualified teachers; assigning high-performing teachers to low-performing schools; providing reading and other academic coaches for all schools with a focus on low-performing schools; and providing student services personnel, such as social workers, school psychologists, for all Title I and Corrective Action schools to improve student attendance and academic achievement. Funds have been provided for additional support to Voluntary Prekindergarten Programs throughout the State and for student financial aid. In most instances programs supported by these funds would have had to be reduced in scope, if not eliminated entirely, without the provision of SFSF funds.**

Please update for the new timeframe:

**All of these funds have been allocated for education purposes including assessment, early childhood education, postsecondary education, workforce development (vocational education), K-12 educational reform, K-12 educational delivery systems, and student financial aid. Funds have been provided for additional support to Voluntary Prekindergarten Programs throughout the State and for student financial aid. In most instances programs supported by these funds would have had to be reduced in scope, if not eliminated entirely, without the provision of SFSF funds.**

Estimate the total amount of Government Services funds that the State has drawn down on behalf of its subrecipients, from October 1, 2010 to September 30, 2011, under the following categories:

Elementary and secondary education (excluding construction, modernization, renovation, or repair of public school facilities):	<b>\$26,271,085.49</b>
Construction, modernization, renovation, or repair of public school facilities:	<b>\$0.00</b>
Modernization, renovation, or repair of public IHE facilities:	<b>\$0.00</b>
Public IHEs (excluding modernization, renovation, or repair of public IHE facilities):	<b>\$123,904,711.25</b>
Public safety:	<b>\$0.00</b>
Public assistance:	<b>\$0.00</b>
Transportation:	<b>\$0.00</b>

Other:	<b>\$0.00</b>
Total:	<b>\$150,175,796.74</b>

### III.A. & B. Tuition and Fees

Describe any actions taken by the State to limit increases in tuition and fees imposed by public IHEs for in-State students:

Entry from previous timeframe:

**Tuition and fees for Florida in-State students in IHE's have increased during the period reported herein. Had the SFSF not been available, it is possible that tuition and fees would have been higher to maintain a reasonable level of per student funding for the operation of IHE's. It should be noted that tuition and fees for Florida public IHE's are below the national average.**

Please update for the new timeframe:

**Tuition and fees for Florida in-State students in IHE's have increased during the period reported herein. Had the SFSF not been available, it is possible that tuition and fees would have been higher to maintain a reasonable level of per student funding for the operation of IHE's. It should be noted that tuition and fees for Florida public IHE's are below the national average.**

For each 2- or 4-year public IHE, please provide the tuition and mandatory fee amounts for in-State students for school years 2008-2009, 2009-2010, and 2010-2011:

Data should be provided for all four-year and two-year public IHEs. Private IHEs should not be included.

#### IV. Tax Increases Averted

Estimate the degree to which State tax increases were averted because of the availability of SFSF funds.

Entry from previous timeframe:

**The State of Florida is constitutionally mandated to have a balanced budget each year. Documentation has been provided in the State Fiscal Stabilization Fund Maintenance of Effort waiver application that the percentage of total state revenues used to support elementary, secondary and public higher education is at least as great as the percentage of total revenues used to support elementary, secondary and public higher education for the specified years. Therefore, the state has supported a level of education services and activities with funding that was affordable with total revenue through tax sources. In the absence of the SFSF, and considering the condition of the Florida economy, it is quite unlikely that the state would have raised taxes. Therefore, funding for state services, including education, would have required modification and reduction as needed to achieve a balanced budget.**

Please update for the new timeframe:

**The State of Florida is constitutionally mandated to have a balanced budget each year. Documentation has been provided in the State Fiscal Stabilization Fund Maintenance of Effort waiver application that the percentage of total state revenues used to support elementary, secondary and public higher education is at least as great as the percentage of total revenues used to support elementary, secondary and public higher education for the specified years. Therefore, the state has supported a level of education services and activities with funding that was affordable with total revenue through tax sources. In the absence of the SFSF, and considering the condition of the Florida economy, it is quite unlikely that the state would have raised taxes. Therefore, funding for state services, including education, would have required modification and reduction as needed to achieve a balanced budget.**

#### V. Jobs Saved or Created

In its quarterly reports submitted under section 1512 of ARRA, each State provided data on, among other things, the number of jobs estimated to have been saved or created as a result of SFSF support. The Department will use the information that has been reported to determine the number of jobs that have been saved or created. For the purposes of the Initial Annual Report, the State is not required to provide any additional information on the number of jobs estimated to have been saved or created.

Jobs Reported Saved or Created in the First APR:

	<b>Reported Jobs for 02/17/09 - 09/30/09</b>	<b>Reported Jobs for 10/01/09 - 12/31/09</b>	<b>Reported Jobs for 01/01/10 - 03/31/10</b>	<b>Reported Jobs for 04/01/10 - 06/30/10</b>	<b>Reported Jobs for 07/01/10 - 09/30/10</b>
<b>Education Grants</b>	13,196.54	18,046.89	17,543.71	17,308.35	31,441.19
<b>Government Services</b>	1,034.78	1,867.35	2,189.55	2,458.18	8,385.59

Jobs Reported Saved or Created in the Second APR:

	<b>Reported Jobs for 10/01/10 - 12/31/10</b>	<b>Reported Jobs for 01/01/11 - 03/31/11</b>	<b>Reported Jobs for 04/01/11 - 06/30/11</b>	<b>Reported Jobs for 07/01/11 - 09/30/11</b>
<b>Education Grants</b>	35589.41	36403.09	35833.8	33207.64
<b>Government Services</b>	3668.95	3696.92	3232.39	3137.78

## **VI. Progress in Advancing Education Reform**

### **A. Reducing inequities in the distribution of highly qualified teachers:**

Describe the steps that the State has taken, from October 1, 2010 through September 30, 2011, to reduce inequities in the distribution of highly qualified teachers.

Entry from previous timeframe:

Since the 2005-2006 data reported in SFSF phase 1, Florida has shown tremendous improvements in the percentage of courses taught by highly qualified teachers. The data below shows that, while a small gap remains between schools with populations considered high poverty or high minority and the State as a whole (<1%), the gap has been reduced and the overall percentages of courses taught by teachers who are not highly qualified in high poverty schools has been more than cut in half. Progress in Improving Strategies for Targeted Improvements in Schools: Differentiated Accountability and the Placement of "Highly Qualified" Staff Introduction and Background In 2008, Florida implemented the Differentiated Accountability System of School Improvement, or the DA Plan. This plan was established following the State's receipt of a waiver from the USDOE in 2008. The subsequent passing of Statute 1008.33, F.S. allowed for the combination of federal and state accountability systems. DA increased the focus on the State's lowest performing schools, provided a support system, and held all schools accountable for their disaggregated student performance data. This plan also represents how Florida has taken the focus on having an equitable distribution of "highly qualified" teachers, inexperienced teachers and teachers in need of improvement. Section 1012.2315, Florida Statutes, mirrors the requirements of the federal equitable distribution requirements to focus on these teachers and to focus on the schools (and their students) in these categories that need the most assistance. The following is an update on the progress of implementing equitable distribution showing the current implementation focus on those schools and their students. Instructional and Staffing Review Process DA is implemented through five Regional Teams strategically placed throughout the State. Each Team is lead by a Regional Executive Director (RED) and is staffed with Instructional Specialists in reading, math, and science, as well as Reading Coordinators. The RED in each Region is an individual with a proven record of increasing student achievement in low-performing schools. The school year begins with an Instructional Review. All schools are visited by their respective Regional Teams and are reviewed to determine areas of need for intervention. The result of the Instructional Review is a customized Action Plan. The remainder of the year is spent implementing strategies and best practices to increase student achievement. REDs, Instructional Specialists, and Reading Coordinators work with teachers and staff to analyze data, provide and attend Professional Development, work with students, and ensure continuous improvement through the active implementation of the Florida Continuous Improvement Model. Regional Teams use the DA Strategies and Support document to guide their efforts. Throughout the process and at the end of the year, data is analyzed to determine what worked and what didn't and changes are made accordingly. When all data points have been released, schools are categorized for the next school year. Specificity for Assurance on "Highly Qualified" Staff: Florida is working to meet the requirements of the current NCLB law for equitable distribution while working toward the goals and requirements of both SFSF and Race to the Top. Prior to the 2010-2011 school year the DA regional teams utilized the Strategies and Support document as well as the District Compliance monitoring tool to ensure adequate support for the "Targeted" schools. Beginning in 2010-2011 this review linking teacher retention/replacement to student performance has now been coupled with requirements under the School Improvement Grant and Race to the Top. The attached timeline shows the manner in which current DA practices, SIG and RTTT overlap regarding the assurance that persistently lowest performing schools are staffed with "highly qualified staff".

Please update for the new timeframe:

Since the 2005-2006 data reported for SFSF, Florida has shown improvements in the percentage of courses taught by highly qualified teachers. The data below shows that, while a small gap remains between schools with populations considered high poverty or high minority and the State as a whole (<1%), the gap has been reduced and the overall

percentages of courses taught by teachers who are not highly qualified in high poverty schools has been more than cut in half.
